

IFB Solid Waste Collection

Addendum #2

We have received the following request for information and hereby to respond:

(1) QUESTION.

We have the bid package in hand and wanted to know if this would be for rental services only or both rental and service? Since the City has their own fleet of commercial front load trucks I would think you would continue to have the city service these locations and a third-party lease dumpster as we have. Can you confirm this?

AGENCY RESPONSE. Contractors can bid on the provision of solid waste containers only; the collection of solid waste disposal only, or on both services. Please refer to section "IFB information at a glance" in the IFB document.

(2) QUESTION.

When does the contract start and what is the term of the contract?

AGENCY RESPONSE. Contracts would start October 1, 2022 and end July 2024.

(3) QUESTION.

Is the Bid Opening on August 22 in person? If so, what time will it start?

AGENCY RESPONSE. The bid opening is not in person. Contractors will be notified once the contract has been awarded.

(4) QUESTION.

If we are not able to supply all trash containers by the start date of the contract will this cause an issue?

AGENCY RESPONSE.

No, we are aware contractors may not have the adequate supply of trash containers available by the contract start date. Further details will be discussed with selected vendor.
